

## Documentation sheet to your projects

Every project you hand in at our chair is accompanied by a documentation sheet. Please hand this sheet in format A4 together with your work. Since you take your work with you at the end of the term, this piece of paper is the only proof of your outcomes you produced at our chair.

If you worked in groups, we need a documentation sheet for each member of the group.

The **front page** is designed according your own ideas.

The documentation should include a visual representation of your work and a written statement which communicates the core ideas of your work. Please find your own, appropriate design for this documentation sheet, there are no formal regulations.

On the **back side** of your sheet we need a lot of information.

Below you find a „plan head“ you can complete on your computer.

Please keep your sheet formatted DIN A4. The secretary will be very appreciated when storing the archive.
